

The Global Scale of English (GSE) – *Taking the 'good fight' to the next level...*

[Tony Gurr](#)

Unless you have been living under a rock (*in the Nevada desert...close to Area 51*) for the last couple of years, you will have noticed a 'new kid' playing in *the ELT Learning Outcomes sandbox*. The Global Scale of English (GSE) has, in essence, built on the attempts of the CEFR to put *learning-driven curricular* on the map for us.

In this session, Tony will highlight many of the key elements of the GSE and how these elements can promote student ownership and control of their own learning. He will also, in his typical thought-provoking and humorous manner, demonstrate how using the GSE has helped him support a range of institutions renew and upgrade their own curriculum and assessment frameworks.
